INTRODUCING: PRECISION STAR GPS REPLACEMENT SPEEDOMETER

PrecisionSTAR GPS SPEED DISPLAY

Finally an aftermarket speedometer with the accuracy and reliability of GPS Technology. Precision Star from PerfectPass is today's replacement solution for pitot or paddle wheel based speedometers.

The advantages are clear:

Clock

Compass

Available in white or black with chrome or black bezel

FEATURING:

- Digital Accuracy from 5 mph
- Reliable in all weather conditions
- No pitot tubes to leak or clog with weeds or debris

Virtually any existing boat with a standard 3.5 inch speedometer can be retrofitted with Precision Star, other features include:

- Operates in MPH, KPH or Knots
- Adjustable Contrast & Backlighting
- Built in directional Compass
- GPS Clock
- Can display longitude / latitude coordinates

- Very simple, fast installation
- No external GPS puck to mount
- Attractive modern design
- No Calibrating Required

Ideal upgrade for Airguide Speedometers
